

Did you receive a surprise hospital bill for COVID treatment?

There may be help.

If you are uninsured:

✓ Find out if the hospital participates in the CARES Act Provider Relief Fund. A list of Florida hospitals who are getting funding can be found [here](#).

✓ Providers who participate in and are reimbursed by the COVID-19 Uninsured Program are not allowed to bill individuals who do not have health insurance.

✓ If your provider received CARES Relief funds and you still received a bill, ask your provider if they can submit your bill for reimbursement to the fund.

✓ Your provider can find information about the program [here](#).

✓ If you want to share your story, contact Florida Health Justice STORIES [here](#).
