

## Healthcare Access by the Numbers: Florida in the Time of COVID-19

**2.7 million** Floridians have no health insurance.

**Blacks and Hispanics** make up a combined 43% of Florida's population, but account for **56%** of the total nonelderly uninsured.

**30%** of Floridians **delayed going to the doctor** or having a procedure done because of high costs.

**Florida is one of 14 states** that have not expanded Medicaid.

**21% of Florida residents are Seniors.**

**28%** of Floridians do not have someone they think of as their doctor or health care provider.

Florida's age-adjusted death rate per 100,000 due to diabetes is **38 among Blacks versus 18 among Whites.**

**47%** of Florida's adults are at **higher risk** of serious illness if infected with COVID-19.

**Florida ranks 39th in the country for public health funding, per capita.**
